OBJECTIVE

Computer Science & Business Systems student with expertise in Java, Spring Boot, SQL, and API development. Experienced in building scalable applications and AI-powered solutions. Bridging technical depth with business understanding to solve real problems and create future-ready solutions.

EDUCATION

B.Tech Computer Science and Business Systems	2022 – 2026
V.S.B. Engineering College, Karur	CGPA: 8.94/10 (Till 6th Semester)
Higher Secondary Certificate (HSC): 82%	2020 – 2022
Bharani Park Matric.Hr.Sec School	
Secondary School Certificate (SSLC): 96%	2020
Annai Matriculation School	

TECHNICAL SKILLS

Programming Languages: Java, SQL Fundamentals
Backend Frameworks: Java Spring Boot
Developer Tools & AI: Git, GitHub, Cursor (IDE), GitHub Copilot, Bolt
Design Tools: Canva, Power BI

INTERNSHIP EXPERIENCE

Java Fullstack Intern	Sept – Nov 2024
Infosys Springboard, India	
- Built RESTful APIs and reusable components, improving development efficiency by 20% - Worked in Agile team of 6 to consistently deliver sprints on time	
Web Development Intern	Jun – Jul 2024
LITZ TECH, India	
- Used AI tools (Cursor, Bolt) to build and optimize modern web applications - Applied prompt-engineering to create responsive UIs and automate workflows	

PROJECTS

SEFANA Banking System	Spring Boot — MySQL — Thymeleaf
- Engineered full-stack 3-Tier banking solution with SHA-256 hashing, Email OTP verification, and chatbot - Developed responsive dashboards for atomic transactions, profile management, and administrative analytics - Successfully integrated JDBC for robust data persistence and retrieval with optimized query performance	
Smart Car Rental System	Spring Boot — H2 Hibernate
- Built full-stack rental app with authentication and role-based access, improving booking efficiency by 30% - Deployed scalable, 95% bug-free system with comprehensive user management and vehicle tracking - Implemented real-time availability tracking and automated notification system for booking confirmations	
KindLink – AI Help Exchange Platform	AI-Powered — Full Stack
- Designed NGO-volunteer platform with voucher-based reward system for transparency and engagement - Built responsive UI reducing volunteer search time by 25% - Integrated AI-powered matching algorithm to connect volunteers with relevant NGO opportunities efficiently	

CERTIFICATIONS & TRAINING

- Generative AI Fundamentals (Microsoft)
- AWS Cloud Foundation
- Google Cloud Computing (NPTEL)
- Computer Networks (NPTEL - ELITE)
- Data Structures & Algorithms (NPTEL)
- Essentials in Cyber Security (CISCO)
- Java Foundation (Infosys SpringBoard)

AREAS OF INTEREST

- Java Fullstack Development
- Artificial Intelligence & Gen AI
- Blockchain

ACHIEVEMENTS

- Secured 2nd Place in IEEE PSG Paper Presentation ("Metaverse Economy") among 500+ participants
